Developer + Multidisciplinary Designer

I am a generalist; slowly becoming a specialist in Web Development. I mix art, design, and technology, to create effective experiences that deliver value at scale. My professional goals are simple: surround myself by smart, energetic, creative people while working on solving problems that matter.

Experience

R/GA @ Google Mountain View

August 2015 ~ Present

Senior Software Engineer

Works as an embedded Software Engineer for Google's Interactive Marketing Division.

AKQA S.F.

January 2014 ~ August 2015

Creative Developer

Worked as a Designer and Developer for physical and digital brand experiences e.g. Target and Nike. Also, worked as an embedded Web Developer for Apple's Interactive Marcom division.

QOMO HiteVision

January 2010 ~ January 2012

Marketing Developer

Created comprehensive marketing materials through web, print, and video for businesses, educational, and governmental establishments.

Education

Simon Fraser University

September 2011 ~ January 2014

B.S. Interactive Systems

Studied how to design, develop, and apply interactive systems with particular emphasis on how people use them through a combination of computing foundations, user-centred design principles, and programming practice.

Wayne State University

September 2005 ~ January 2008

B.A. Asian Studies

To prepare students for the increasing demand for professionals with training in Chinese and Japanese.

Oakland Community College

January 2004 ~ December 2005
